Erin Angelini

Lewis Hall, 4182 W Stevens Way NE, Seattle, WA 98105

eang@uw.edu (708)522-9116

Education

University of Washington **Seattle, WA**
PhD in Applied Mathematics *Expected Graduation: June 2023*

Pomona College **Claremont, CA**
BA in Mathematics *May 2018*

Relevant Coursework: Probability and Stochastic Processes, Dynamical Systems, Partial Differential Equations, Stochastic Models in the Life Sciences, Perturbation Theory, Optimization

Programming Languages: Python, Matlab, Julia

Research Experience

University of Washington **Seattle, WA**
Graduate Research Associate *2019-present*
Advisor: Dr. Hong Qian

Epigenetic Landscape for Cellular Differentiation *2020-present*
- Apply concept of an "epigenetic landscape" to the phenotypic evolution of cancer.
- Gain functional insight into the non-genetic heterogeneity observed in tumors.
- Develop a statistical framework to infer landscape from single-cell mRNA data.
- Collaboration with Dr. Jospeh X. Zhou at Novartis Institutes in Cambridge, MA.

Evolutionary Dynamics of Tumor Recurrence *2019-present*
- Analyzed a dynamical model for cancer population dynamics during chemotherapy.
- Investigated relation between induced drug-resistance and inevitability of tumor recurrence.
- Derived general conditions for the inherent limit to the success of continuous therapy.
- Collaboration with Dr. Sui Huang at the Institute for Systems Biology in Seattle, WA (paper in progress).

Pomona College **Claremont, CA**
Undergraduate Research Assistant *2017-2018*
Advisor: Dr. Blerta Shtylla

- Implemented mean-field model of pronuclear spindle alignment in early C. elegans embryos.
- Fit probability density of spindle position to sample distribution generated by a computational model.
- Numerically solved partial differential equation for the mean time to complete spindle rotation.
- Collaboration with Dr. Adriana Dawes at the Ohio State University in Columbus, OH.
- This work culminated in my bachelor's thesis.

Presentations

- "A mean-field model for C. elegans embryo localization." **Angelini, E.** and Shtylla, B. 2017. *MBI Capstone Conference*, Mathematical Biosciences Institute, Columbus, OH. Recording available online (link).
- "Characterizing noise in a mathematical model of the adipogenic transcriptional network." **Angelini, E.** and Jilkine, A. 2016. *Council on Undergraduate Research REU Symposium*, National Science Foundation, Arlington, VA.

Teaching Experience

University of Washington **Seattle, WA**
Teaching Associate *2019*
- Calculus with Analytic Geometry I (Fall 2019)
- Partial Differential Equations and Waves (Spring 2019)

Pomona College **Claremont, CA**
Teaching Assistant *2016-2018*
- Calculus III (Spring 2018)
- Differential Equations and Modeling (Fall 2017)
- Linear Algebra (Fall 2017)
- Calculus II with Applications to the Sciences (Fall 2016)

Claremont McKenna College **Claremont, CA**
Teaching Assistant *2017*
- Complex Analysis (Fall 2017)

Leadership & Service

University of Washington **Seattle, WA**

Society for Industrial and Applied Mathematics (SIAM)
Student Chapter President *2020-2021*
- Coordinated weekly events, including student-led panels and technical tutorials.
- Organized Q&A sessions for students with guest speakers.

Association for Women in Mathematics (AWM)
Student Chapter President *2019-2020*
- Hosted quarterly events to build community among graduate students.
- Sponsored events for students to meet with visiting speakers.

Pomona College **Claremont, CA**

Association for Women in Mathematics (AWM)
Student Chapter Head Officer *2017-2018*
- Hosted biweekly lunches to build community among undergraduates.
- Ran technical workshops on mathematics-related software.

Awards & Honors

University of Washington **Seattle, WA**

SIAM Certificate of Recognition *2021*
- For outstanding work as SIAM student chapter president.

Achievement Rewards for College Scientists Fellowship *2018-2021*
- Awarded to select incoming PhD students.

Pomona College **Claremont, CA**

Kenneth Cooke Research Fellowship *Summer 2018*
- Awarded to students pursuing research in applied mathematics.
